

# **Metal & Glass Cabinets**

*Assembly & Installation*

# Thank You!

Thank you for purchasing Stoll Metal & Glass Cabinets! We are confident this quality product will last you for years to come. If you need further help or additional information regarding installation, please reach out to your local dealer for assistance.

## Required Tools (not included)

- A. Power Drill
- B. Drill Bit
- C. Screws/Fasteners

## Cabinet Installation

Using the appropriate drill bit to accommodate your desired fasteners, drill holes in the top and bottom rear mounting flanges aligned with your studs or mounting surface. Using the appropriate fasteners for your mounting surface, secure the cabinet body in place.

## Shelf Installation

Remove the protective packaging from the glass shelves, and lower them onto the integrated support brackets inside the cabinet.

---

## Door Installation

Remove the protective packaging from the glass doors. Install the doors by lowering them onto the hinge studs on the face of the cabinet.

*A rubber mallet may be useful to ensure the doors are firmly seated on the hinge studs.*

# Operation & Maintenance

• Your cabinets can be cleaned using a damp cloth and soap or mild household cleaner. *To avoid damage to the finish, abrasive cleaning products and cleaners containing ammonia or other harsh chemicals should be avoided.*

## Warranty

Your cabinets are covered by a 3 year limited warranty. For more information, please visit [www.stollindustries.com/resources](http://www.stollindustries.com/resources). All warranty claims must be placed through your local dealer.

## Photos of Completed Products

We would love to see pictures of your finished and installed project! Please send images to [photos@stollindustries.com](mailto:photos@stollindustries.com). High quality images will likely be featured on our social media or website!
